SUMMARY

Full-stack developer with a BSc (Hons) in Information Technology and Management from the University of Moratuwa and nearly 1 year of industry experience building scalable web applications. Proficient in React.js, Next.js, Node.js, Express.js, and TypeScript, with strong expertise in REST API development, SQL and NoSQL databases, and Git version control. Experienced in developing multi-tenant systems, real-time features, and collaborating with cross-functional teams to deliver end-to-end digital solutions. Passionate about building high-performance, secure, and user friendly applications.

TECHNICAL SKILLS

Programming Languages: C, JavaScript, Typescript, Java, Python

Frontend Development: HTML, CSS, JavaScript, React, Next.js, Flutter

Backend Development: Node.js, Express, PHP

Database Management: PostgreSQL, MySQL, MSSQL, MongoDB

API Development: GraphQL, REST API

Version Controlling: Git

IDEs: VSCode, CodeBlocks, IntelliJ, Jupyter Notebook

Project Management: Jira, YouTrack, ClickUp

Design Tools: Figma, GIMP

EXPERIENCE

Associate Software Engineer

2025 (6 months)

Ariso Technologies Pvt Ltd

- Contributed to full-stack development and maintenance of software solutions ensuring performance optimization and seamless user experiences.
- Collaborated with cross-functional teams to deliver high-quality products. Integrated RESTful APIs and third-party services

Software Engineering Intern

2025 (6 months)

Ariso Technologies Pvt Ltd

- Assisted in developing and testing software applications. Participated in code reviews, agile development cycles.
- Gained hands-on experience in agile development and version control.

PROJECTS

Predictive Analytics for Honeybee Colony Management

2026

Final Year Research Project

- Developed a predictive framework using multivariate hive time-series data (temperature, humidity, CO2, weight) to forecast brood health deterioration, swarming, and absconding.
- Designing continuous health scoring (0–100 with 4 levels) and formulating Bee Health Stability Index (BHSI) and Rate of Deterioration (RoD) metrics.
- Implemented Models using Python, Pandas, Scikit-learn, FastAPI, PostgreSQL, and Flutter.

Event Management System

2nd Year Software Project - 2024

Team Project

- Developed a comprehensive platform for event creation, ticketing, registration, attendee interaction, and reporting.
- Implemented role-based authentication and authorization, and a real-time chat system.
- Technologies: React, Node.js, MySQL.

DonorLink

3rd Year Individual Project - 2025

Web Application for Goods Management

- Built a web app to manage goods in children and elderly care homes, reducing waste from unnecessary donations.
- Features include inventory tracking, real-time updates, donation history, and category-based filtering.
- Technologies: React.js, TypeScript, Node.js, PostgreSQL, REST API, Tailwind CSS.

DialDesk – Multi-Agent Admin Console for Call Centers

2025

Internship Project

- Developed the complete multi-tenant Admin Console for an AI-powered call center platform supporting multiple organizations.
- Enabled configuration of AI agents, performance analytics dashboard, prompt template management, MCP server connections, and audit trail.
- Collaborated with the AI team; built using Next.js, Node.js, PostgreSQL, and GraphQL, REST APIs

Personal Academic Library

2026

Academic Management System

- Created a system for organizing study materials across semesters and modules.
- Supports file uploads with inline preview, category-based filtering, and anonymous user sessions.
- Technologies: React, TypeScript, Node.js, PostgreSQL, Prisma, Cloudinary, Tailwind CSS.

EDUCATION

University of Moratuwa

BSc (Hons) in Information Technology and Management, CGPA 3.44 (Second Class Upper Division)

2022-2026

R/B Ananda Maithreya Central College

G.C.E Advanced Level Examination 2020, Commerce Stream – Z score 1.7789

2012–2020

Sabragamuwa University of Sri Lanka

Diploma in English

2021

CERTIFICATIONS

Supervised Machine Learning: Regression and Classification – DeepLearning.AI (Apr 2026)

AI Fundamentals – Google (Apr 2026)

SQL (Intermediate) – HackerRank (Aug 2024)

Developing Front-End Apps with React – IBM (Mar 2024)

Python for Data Science, AI & Development – Coursera (Jan 2024)

Certificate in Python Programming – Ministry of Education in collaboration with Computer Resource Center (Balangoda Zone) (Jul 2018)

Introduction to Front-End Development – Coursera (Sep 2023)

Web Design for Beginners – University of Moratuwa (Mar 2023)

LANGUAGES

Sinhala – Native

English – Professional Proficiency

German – Elementary Level
